

Rental Services for Data Centers

Temporary Cooling Solutions for Mission-Critical Needs

Whether you're maintaining an aging enterprise facility, rapidly scaling to meet unprecedented demand or racing into the AI space, heightened cooling and uptime demands abound.

As an innovative provider to the data center community for decades, Trane is uniquely situated to understand the needs and risks associated with these mission-critical spaces and collaborate in providing solutions and risk-mitigation strategies.

We bring a customized approach to provide uninterrupted operations with efficient, reliable and precise cooling systems to meet your operational and business goals. Backed by an unparalleled OEM services arm, Trane Rental Services offers long- and short-term rental solutions to keep your business safe and driving forward.

Let Trane Rental Services help with your data center challenges, including:

- Equipment lead times limiting speed to market
- Planned maintenance, expansion or emergencies threatening uptime
- Additional cooling power required to maintain peak operation and ensure redundancy

Why Trane Rental Services?

Turnkey Services from Start to Finish.

Our comprehensive and tailored approach begins immediately upon contact and spans equipment selection, installation and setup, maintenance and decommissioning of equipment.

Advanced Equipment.

Our large, young and well-maintained fleet of advanced cooling equipment is built specifically to meet today's demands in temporary applications. The delivery and installation of rental units are scheduled to integrate seamlessly into your operation. And, if desired, units can be remotely monitored using our isolated communications network which limits potential cybersecurity risks.

Customized Solutions.

Our experts will work with you to determine the best solution for your operational and sustainability needs, including meeting your redundancy requirements.

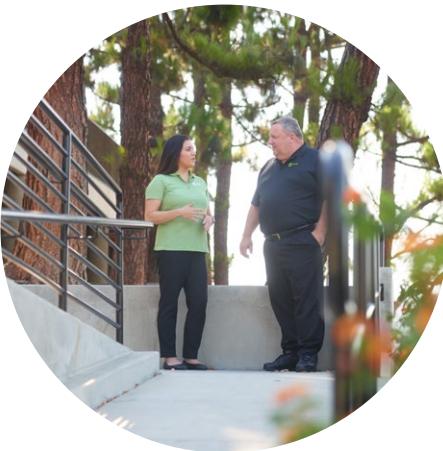

Expertise Where You Need It—Fast.

Trane offers 24/7/365 support nationwide backed by 2,600 expertly trained service technicians for unparalleled rapid response.

Rental as a Service.

Renting can be an operating expense solution where you let Trane's cooling experts provide the reliability and efficiency required with our resources to give you peace of mind and optimal operation.

Cooling solutions from a trusted partner

Every data center is unique and so are your cooling demands. We provide fast, safe and cost-effective solutions to serve your special applications and temporary needs. Our expert team of account managers, engineers, service technicians and logistics professionals can rapidly transform the equipment you need into a high-performing system that will exceed your expectations.

Trane is a global leader in the manufacture and supply of sustainable, innovative HVAC equipment. We engineer and build the equipment we use for rental applications—one of the most advanced fleets of rental chillers in the country. And as the OEM, we stand behind it with unparalleled service and support.

Contact Us

Ensure that the cooling equipment in your data center keeps up with your operational and sustainability needs—and your plans for growth. From temporary rentals to system design and purchase, we provide the equipment and service you need to support your mission.
