

Rental Services

Temporary HVAC Equipment
and Power Generation

Whether an Emergency or Planned Event, Trane Rental Services is there.

Trane Rental Services Value

Whether it's extra cooling needed during extreme weather conditions or a short-term replacement following an emergency, businesses sometimes require equipment to cool, heat or power an indoor environment on a temporary basis.

Trane Rental Services can do just that, delivering fast, reliable and cost-effective solutions when you need them.

A temporary system can keep your business operational while you repair, replace or upgrade your existing system.

Trane Rental Services provides scalable cooling, heating, and power for unique applications, unusual situations and special events. Call us, and in no time at all, we can set up, install and operate equipment for your requirements—indoor or outdoor, short- or long-term, large project or small.

Our team of account managers, engineers, service technicians and logistics professionals can rapidly transform the equipment you need into a smoothly functioning system that will exceed your expectations.

Trane Has You Covered

Every rental delivers state-of-the-art Trane equipment and expertise. We'll be your one-stop solutions provider when you are:

Short on time: A temporary system allows you to continue your business operations while you take the time to find the best permanent solution.

Short on funds: Capital improvement budgets continue to shrink. A rental from Trane can allow you to use funds from your operating budget to accomplish the same objective.

Planning ahead: Knowing when and where temporary solutions are available can speed time of deployment in an emergency and limit associated financial losses.

At peak capacity: A rental is a cost-effective solution for a short-term situation, such as a spike in production, that lasts two months or less.

Equipment Overview

Trane Rental Services has an impressive array of heating, cooling, and power generation equipment. Our capabilities include 1- to 1,000-ton units of cooling, 36 kW to 1.5 MW of power generation, electric and indirect fired heaters up to 512,000 Btus.

It's Not Just a Rental, it's a Trane.

Anyone can rent you equipment. Here's what sets Trane Rental Services apart:

Advanced Technology

We provide the same advanced equipment that has made Trane the leader in HVAC applications.

- Latest models with annual fleet updates
- Compatibility with building control systems
- Remote monitoring capability

Modified for Temporary Applications

Our equipment is modified for easy installation and operation.

- Integrated lifting frame for overhead crane or forklift use
- Altered for quick connects
- Shore power

Superior Service

Our highly trained service staff is available 24/7 for emergency, equipment and customer service support.

- 150 Locations in North America
- 230 Parts Centers
- 2,600 Technicians

Reliable Equipment

Our equipment is constructed as new original equipment for our rental fleet.

- Youngest equipment fleet in the industry
- Equipment undergoes regular run testing and full maintenance

Emergency Planned

When the unexpected happens, our extensive network of rental depots and service centers enable us to quickly provide generators and HVAC equipment on site to help you recover as soon as possible. Take advantage of the contingency planning services at your local office to be ready for anything.

Shutdown

A shutdown of HVAC and power equipment in order to conduct planned maintenance or make major improvements or renovations. Temporary equipment can help you maintain normal operations during this period.

Seasonal

Special circumstances may demand power and heating/cooling air beyond the capacity of a facility's existing equipment. Temporary supplemental equipment can fulfill these requirements in a cost-effective manner.

Special Events

Specialized situations and environments call for specialized equipment. We have the temporary cooling, and power systems you need to support your golf tournament, harvesting, ice rink, festival, concert or other special event.

A Fleet of Products at the Ready.

Rental Service Products

Air-cooled Chillers

Ideal when speed, ease of installation and reliability are your primary concerns.

- Equipped to provide quick restoration of cooling in emergency and planned shutdown situations
- Applied in industrial and commercial markets to provide cooling for both process and comfort applications

Available Products

- 25–500 ton
- 480V
- Integrated pumps on most models

Water-cooled Chillers

Modified to install easily to provide fast temporary backup or added capacity.

- Larger tonnage in a smaller footprint
- Ideal for large process and comfort cooling applications that require higher efficiency equipment
- Weatherized for outdoor use

Available Products

- 225–1,000 ton
- 480V and 4,160V models available

Cooling Towers

Rent our cooling towers as standalone units or paired when water applications are needed.

- Provide the cooling for water-cooled chillers and can be used directly in some process cooling applications
- Temporarily replace a tower that has gone down
- Useful for processing and manufacturing applications

Available Products

- 250–750 ton

Heat Exchangers

Our temporary heat exchangers are plate-and-frame type and provide fluid-to-fluid heat exchange in chilled/hot water applications.

- Provide the cooling for water-cooled chillers and can be used directly in some process cooling applications
- Allow transfer from one cooling method to another
- Useful for processing and manufacturing applications

Available Products

- 100–500 tons

Air-handling Units

Our custom engineered air-handling units are the right solution for larger jobs and are outdoor rated and sized for 100 percent outside air.

- Turn cold water from our chiller into cold air
- Ideal for providing air conditioning to very large warehouses, tents and other facilities
- Low temperature 30-ton Krack units also available

Available Products

- 5–25,000 cfm

Air Conditioning Units

Our state-of-the-art packaged rooftop air conditioning units provide quiet and efficient temperature control and are modified to be lifted by crane or forklift.

- Provide the quickest and easiest source of temporary cold air
- Restore cooling in an emergency; or cool a previously unconditioned space
- Convenient for special venues such as outdoor sporting events
- High-static 35- and 50-ton units available

Available Voyager Units

- 10–80 ton

Vertical Units

Our vertical units have been specially designed to meet the specific needs associated with heating and cooling a special event.

- Designed for integrated cooling and heating
- Optimized for minimal noise output and footprint
- Modified for rental with cam lock connections and four-way forklift skid
- Simplified controls for ease of operation
- Capable of producing heated or chilled air

Available Tent Units

- 10–30 ton

Portable AC Units

Portable AC units can do more than just cool—they can also dry wet areas and protect equipment from water and humidity.

- Maintenance-free operation
- Totally self-contained
- No costly installation necessary
- Ideal for server rooms, laboratories and small office spaces

Available Products

- 1–5 ton

Electric Heaters

Electric heaters from Trane Rental Services provide clean, electric heat that is free from the moisture and fumes associated with other types of heating.

- Cam-type electrical connections
- Forklift compatible
- Flex duct connections

Available Products

- 50 kW and 150 kW electric heater capable of 170,000 to 512,000 Btu/h

Indirect Fire Heaters

Provide temporary heat, using either natural gas or propane, with Trane indirect fire heaters.

- 512,000 Btu heat

Available Products

- 500,000 Btu/h

Ancillary Products

Trane Rental Services makes equipment rental simple and fast. In addition to a wide selection of dependable equipment, we offer all the accessories needed to get your equipment up and running quickly.

- Provide complete temporary solutions
- Help us tailor solutions to your specific needs

Available Products

- Pumps
- Transformers
- Power distribution
- Flex hose
- Electrical cable
- Flex duct
- Trailers

Generators

Whether you need to power one of our temporary cooling solutions or just need additional power, Trane has temporary power ranging from 36 kW to 1.5 MW.

- Cam-type electrical connections
- Forklift compatible
- Larger units can be set up in parallel to provide addition power solutions

Available Products

- 36 kW – 1.5 MW

Power Distribution Equipment

Weatherized for outdoor use, a wide variety of power distribution equipment is available to support Trane rental units in most any situation.

- From cables to distribution boxes, Trane can provide a solution to your power distribution needs.

Available Products

- Quad string cables
- 20A extensions
- 50A extensions
- Spider boxes
- Transformers

Trane Rental Services is available 24/7 for technical support, quotes and inquiries regarding availability. With our round-the-clock support, we can also offer shipments on weekends, holidays and after normal business hours.
